2019 North Idaho Cereal Schools

Eight cereal school events are held across the state, including three in northern Idaho. They are sponsored by the Idaho Wheat Commission, the Idaho Barley Commission, and the University of Idaho. These educational workshops provide an opportunity for producers to learn about issues in their region, including insect issues, disease updates, variety trials, weed control, economics, markets, and other important issues.

Program Agenda

8:00 AM— **Sign in and refreshments**

Sponsors: *Boundary Tractor, General Feed and Grain*

8:30 AM— **Welcome & Introductions**

8:45 AM— **Idaho Barley Commission**

Come meet Laura Wilder, our new Executive Director, who will provide an update on current issues and markets for barley.

9:15 AM— **Idaho Wheat Commission**

Executive Director Blaine Jacobson will provide an update on current issues and markets for wheat.

10:00 AM— **Break**

Sponsors: *Boundary Tractor, General Feed and Grain*

10:15 AM— **Cereal and Cool Season Pulse Variety and Disease Update** Variety performance of cereals and grain legumes will be

discussed for 2018 cropping systems and conditions. A disease update will include identification and treatment for physiological leaf spot of wheat. *Kurt Schroeder, Cropping Systems Agronomist, UI*

11:00 AM— **Grass and broadleaf weed control in cereals and legumes** Update on chemical weed control in wheat, peas, garbanzo beans, lentils, and canola. Focus will be on the following new herbicides: Osprey Xtra, Talinor and Quelex. Target weeds will include Italian ryegrass, downy brome, rattail fescue, mayweed chamomile, prickly lettuce and common lambsquarter. She will also highlight grass herbicide resistance in our region in Italian ryegrass, downy brome, interrupted windgrass and wild oat. *Traci Rauch, UI Support Scientist*

12:00 PM— **Lunch**—*Sponsored by Idaho Barley and Idaho Wheat Commissions*

12:45 PM— **Weed, Insect and Disease Control in Canola** Update on integrated control of weeds, insects and diseases in canola production, including a discussion of disease management for blackleg. Canola variety trial results will be briefly discussed as well. *Jim Davis, Research Scientist, Canola, Rape-seed and Mustard Program, University of Idaho*

1:30 PM— **Projected Net Returns by Rotation** Calculate your net returns per acre by crop as well as on a rotational basis using these cost calculators in Excel. Market outlooks are included in the budget tool. Given the low returns for many rotational crops, you might want to consider using a cover crop for grazing or soil building. *Kate Painter, UI Extension, Boundary County*

2:00 PM— **Adjourn**

2019 North ID Cereal Schools

Greencreek: Tuesday, January 22, at the Community Hall.
